AZEN MONK

First Sunday of April celebration in Las Vegas

The Elohim gave us a Message not only to explain where we come from, not only to explain why we are here, but to explain what a beautiful heaven we can create on this planet, if we apply their teachings, which are : destroy

all powers and governments, destroy money, and create one unified planet.

Rael, March 65 aH

MAITREYA'S WORDS

1ST SUNDAY OF APRIL

Today is the most beautiful day of our lives. It is also the most beautiful day of transmission for the Raelians because it's the celebration of the creation of life, the creation of everything alive here, every tree, every plant, every grass, every butterfly!

It's a day of laughing and a day to celebrate life.

Can you imagine the Elohim on Earth, scientists laughing like children, jumping in laboratories, because they created the first human being, your ancestor? that's 'wow'.

I woke up at 5 am this morning, and for the whole day, every minute, I said "thank you Elohim, thank you for all this. Thank you for everything."

This is a day of celebration, a day of joy.

ABOUT THE RAELIAN BAPTISM

A young girl presented herself for transmission in Okinawa during the ceremony on the first Sunday of April and Maitreya asked her to come back in a few years.

He then made the following comments:

"You just saw that I don't accept children, because to do your transmission, you must be conscious.

It can never be imposed to children by the family.

It must be done by somebody who is at an age of understanding, it can be usually from 14-15, exceptionally 13 or 12, but we must really feel that the person says "it's my choice".

Our movement, our philosophy is not about belief, it's about understanding, it's about science.

And it's very different from the religions transmitted from parents to children, it cannot be like that.

Of course it's very good if you transmit it to your children, but you have to teach them Buddhism, teach them Shintoism Christianity, everything, and when they reach 12, 13, 15, tell them to choose, without any pressure, letting them free.

And if they decide something different and new, enjoy it, don't be angry and sad.

If they become Raelian to please you, that's terrible, because they are not really Raelian. To be Raelian must come from inside.

We are the only ones like that.

Every Muslim wants his children to be Muslim.

Every Christian forces his children to be Christian.

Every Buddhist wants his children to be Buddhist.

Not the Raelians, we are here for consciousness, freedom, free choice.

You too, you are free to choose to stay Raelian or change.

And that's our strength, that's our joy.

Because everyday when we wake up, we choose to be Raelian. No Raelian can say: "My father was Raelian, my grand father was Raelian, so I don't think anymore", I was born Raelian I will die Raelian" Never! Every morning ask yourself: "Am I still Raelian?", do it honestly, feel it and if yes, yes.

But if you have doubts, or if you don't feel really Raelian, then quit.

I don't want followers, you are not my followers, I don't want to want followers.

I want people who work with me, beside me, not following me.

But at the same level, we are one and we are working together.

I don't want any followers. Some stupid journalists sometimes ask "How many followers do you have"?

None, nobody, I don't have any followers.

If you are with me to follow me, please leave, I want you to walk beside me, or rather in front of me.

I want to be your follower, you are the Message, you read the Message, I want to follow you.

How many followers do you have ? One.

My mission is to follow you and we will build the embassy and welcome the Elohim.

ABOUT THE NUCLEAR CRISIS IN JAPAN

on April 3rd

I hope that soon everything goes right in Japan, but we don't know yet.

It's still possible that it becomes a big drama.

And the Elohim can do nothing about it, and they will not do anything about it.

Your government is responsible, and what they did was criminal.

First to create a nuclear plant in a country where you have tsunami, close to the ocean, this is criminal.

Then thanks to that situation, we see the whole world

communicating, proving how irresponsible they are.

The United nations decided to attack Lybia. Billions of dollars are spent everyday to attack Lybia.

They will save maybe 500, 1,000 people. Meanwhile in Japan there might be 10 million people dead, maybe 30 million because of the radiation.

If the United Nations were responsible they would now forget about Lybia and send all the scientists of the army of the world to Japan to stop the problem.

Nothing! They did nothing!

Now, 2 weeks later, there is still radiation coming out of Fukushima. Where are the United Nations ? Attacking Lybia.

Where are the United States ? They evacuated 100,000 people from Japan. They are running away and attacking Lybia.

Where is the United Nations agency for atomic problems? In North Korea to see if they have a nuclear bomb. They are trying to see in Iran if there is a nuclear bomb.

Wait a minute ? Are you looking for a bomb ? You think that a nuclear problem is dangerous ?

Wow, wake up please! There is a nuclear problem in Japan!

But nobody comes and the poor Japanese government is completely out of the game; they are lying, they don't know what to do, and it's a terrible nightmare.

Yes they did something, not the Japanese government, but the Japanese Emperor went to visit the refugees. The Emperor goes and says "we are so sorry". That's crazy, it's nothing.

If the Japanese Emperor was really a good man he would say "please, come to my palace in Tokyo".

Since the Japanese Emperor has many residences, why doesn't he give the palace in the middle of Tokyo and welcome all the homeless people there?

The mayor of Fukushima is asking for food and for help.

I think all the Japanese people would love the Emperor if he were to say "come in the palace". But Nothing. He just went there and said "I am so sorry", and he went back to his palace.

The world is so crazy.

There is no love, no compassion. In a few years people will realize how criminal the governments of the world have been.

It is a silent death happening in Fukushima, it's a silent killer, a secret killer, it's terrible because in 5 years, 10 years, 20 years, people will still be dying.

Hiroshima was terrible. Fukushima is 1 million times worse.

In 30, 40 years from now, you will see that maybe 30, maybe 50 million people will die of cancer linked to that nuclear problem.

Still now, in France and in Sweden, 3000 km away from Chernobyl, 15 years after, the number of cancers is rising at the same level as 15 years ago. Still now you cannot eat white mushrooms in Germany, because they are still dangerous for health, 15 years after. Imagine the mushrooms of Fukushima in 20-30 years.

That's what's happening in the world. The whole world should be here to help, but nothing.

It's a terrible drama, but at the same time it's very good, because slowly they will realize. The government has a very slow brain, we are governed by retarded people, slowly they will realize.

It is like when there is a dangerous curve on the road in France -and I know it is the same in Japan-, they won't put a sign until there are 5 people dead. One death is not enough, 2 or 3 too bad, until there are 5 deaths, they won't put a sign.

And it's the same for Fukushima.

Thanks to the millions of people who will be dying, there will be big changes. But it is so bad for the people who die. So bad but thanks to them, the world will be better. And it's too bad that we have to go through drama to change.

This event will help to create a world government.

That's why every time something wrong is happening, we have to think "ok, it's very painful but it will bring something

better”.

Maybe one day humanity will be more evolved and will not need to go through drama to learn, but it's still like that now, because we have stupid governments and stupid United Nations. Everything in the world is so stupid and so primitive.

That's why the Message of the Raelians is so important because you bring geniocracy, paradism, you bring everything that is hope for humanity and the #1 message that we don't need any government, because they make mistakes.

Fukushima is a big mistake, is it your mistake ? No, it is the government's.

The wars, all the wars, is it your mistake ? The Governments'.

Anarchy is the best way.

And when love becomes the law, we don't need government. We don't need police, we don't need law.

When everybody works for the good of everybody, then we'll see.

So let's hope that soon, thanks to you spreading this message, we can bring the Earth to a better level, with geniocracy, paradism and natural order due to anarchy, the same as the one in ants colony.

Thank you Elohim and let's hope that consciousness will rule the world.

WHAT IS HAPPENING IN FUKUSHIMA IS NORMAL.

Sunday April 10th

Thanks to the problem of Fukushima, the nuclear plants everywhere in the world will become much safer.

Some people may say 'why don't the Elohim come and help?' They won't help because they let us learn from our mistakes.

I predict that the nuclear plants of Japan will now be the safest in the world because they won't want that to happen again.

Humanity needs to face a big problem, a big drama with many people dying so that it makes it better. It's very sad for those who suffer and who died, but humanity is always like that.

Human beings have a slow brain, as long as nobody dies they don't change the way they behave, but when a big problem happens, they change. It's terrible! It would be much better to change before, but human beings are too primitive for that.

Without geniocracy, that's normal. If there was geniocracy that would not happen.

But with the wild democracy we know, what we see is absolutely normal because the world is guided by financial interests, money and power, not by intelligence. If there was geniocracy instead of democracy, the Fukushima problem wouldn't have happened. It's because of the primitive political system on Earth that all the bad things we know happen.

Hitler was elected democratically, so World War II happened because of democracy. The President of America who sent the atomic bomb on Hiroshima, has been elected democratically. The Japanese government that authorized Fukushima, has been elected democratically. As long as we have this very primitive system, there will be more drama.

But slowly through painful death and suffering, humanity will realize that democracy is not working.

Right now there are 20 wars going on in the world, right now! There is one child dying of starvation every 10 seconds. That's the world of democracy we are in now, and less than 1000 people in the world are altogether the owners of 90% of the wealth.

That's democracy, that's the world we are in and that's why the Message of Elohim say we must replace that by geniocracy, by paradism, and the natural order which is called anarchy with no power no law no government but a world guided by a genio-cratc council.

If the world was like that, there would be no Hitler, no Hiroshima, no Fukushima.

The only way to avoid a future drama and millions of people dying is to change the system. More and more people, especially young people, realize that.

It's time for a world revolution so that there will never be another Fukushima.

Before people were saying no more Hiroshima. It's time to say no more Fukushima, and the only way to avoid that is to change the system, to change the way the world is ruled.

And that's the Message of Elohim. The Message of Elohim is not only explaining that they came on earth and created life. The fantastic Message of the Elohim, gives us the tool to make this world like a paradise. As long as we don't do it, there will be more and more problems.

So we, the Raelians, we are not sad for what is happening. Of course it's sad for the people who are suffering, but we are very happy because every problem brings us closer to the solution.

And this primitive humanity, without many people dying and suffering, will never change.

It's terribly sad, but we need more problems, more people dying, maybe another world war, possibly very soon, as without that there will be no change! So it's terrible but it's the way it is.

That's why we, the Raelians, every time there is a big drama, we have compassion for those suffering but we are very happy, because we are getting closer to a future beautiful world.

We have to be happy! To laugh, to sing, to dance, to say thank you Elohim for this wonderful Message which teaches us that thanks to big dramas, we are moving towards a better world.

Without drama, there won't be changes!

That's the lesson of it, it's everyday happening on earth, every day big changes are bringing a better world. And maybe the Raelians are the only ones happy for it, because we are the only ones to understand what is going on. The others cry, they pray a God that doesn't exist. They are scared, they are afraid, we laugh! Because we know! What's happening in Hiroshima is normal.

Adolf Hitler was normal and Fukushima is normal. They are the fruit of the system, a rotten world system. That's the world we are in and we can see it everyday and thanks to the Elohim we understand it will change very fast.

So please, be happy. Every time a problem arrives, everybody cries, we laugh! Every time more people die from war, everybody cries and say 'why, why, why?'. We know why; we laugh!

There will be more wars, more people dying, it's bad, it's not something good but it's normal, as long as the world doesn't adopt a new system: Geniocracy and paradism, no more money, no more government, no more powers, no more law, but natural law of love where everybody loves each other.

That's coming. We are the only ones to know. We are the only ones to say, each time a new problem happens : "Yes! another step towards happiness." That's why we have to train ourselves for happiness, for love, if we want the world to be ruled by love.

If you want the world to be ruled by love, you have to start for yourself, by loving yourself, by loving other Raelians, your brothers and sisters, by loving each other, by giving everything, all the love you have to your brothers and sisters.

We are the model of humanity and number 1 about love. That's what is important.

I wish you today a beautiful day of love, pleasure, of happiness and laugh as much as you can.

And remember the seminar, laugh, laugh for no reason, you don't need a reason to laugh, laugh. Don't wait to be happy to laugh. Laugh to be happy! If you wait to be happy to laugh, you may wait for your whole life and never laugh. Laugh first and then happiness comes.

WE DON'T NEED GOVERNMENTS, COOPERATION IS THE FUTURE OF HUMANITY

February 20th

This world is sick, this planet is sick, countries are bad with other countries, every government is bad with its people, and it is so everywhere.

That's why so many countries are revolting, Tunisia, Egypt, Barhain now, and Yemen, it is happening everywhere. People are fed up with their government. So they make a revolution, a little revolution, they change the government and replace it by another one which will be the same because power is always bad.

What we need is a free society. That's the future of humanity,

In the Message given by the Elohim, they explain 'that on their planet they have a system called Geniocracy and every body thinks it's a political system where geniuses have power on other people.

This is totally stupid, there is no power on Elohim planet, nobody has power.

The Elohim have elected people to be their leaders, geniuses and these geniuses guide everybody, like every guide does, like a Buddha, like a spiritual guide.

I have no power over you, I don't want to have power, no Buddha wants to have power. I am just guiding you, showing the way.

Practicing geniocracy, on the Elohim planet, the leaders show the way, they say to people "this is what we should do, if you agree we should all do this".

For example, on earth right now there is a big pollution and big problem with oil, and there are many ways to make cars running on electricity, or even water. A new car in Japan has been made last month which runs on water.

So a geniocrate power would say to people "good idea, let's make electric cars or water powered cars for everybody". This is not using power, just giving ideas and then everybody accepts.

This is the future, a world governed by the people.

There is no need for governments, no government at all.

People call this anarchy, thinking that if there is no government and no power it would be complete chaos, everything would be upside down. It's not true.

Take for example the ants. Everybody says there are an ant population and there is one queen.

There is no queen, this queen ant has no power. The queen of ants is just a vagina, making babies, hundreds of them every-day, but it has no power.

We should not call that a queen, a queen is somebody like the queen of England who says "do this, do that". The queen of ants just makes eggs, every day, hundred of eggs, that's all.

They have no government. In the social organization of ants, every ant works for the good of everybody and it works perfectly. Every ant does what is best for everybody.

In the ants society, there is no police, there is no military, everybody does what is best for everybody.

People say "what if somebody is bad?" Nobody is bad.

When there is no power, no police, no law, natural law comes and everybody wants to be good with everybody.

Nobody can say it doesn't work, look at the ants, it works.

Look at every ant's colony, every honey bees, every wasp, they have no king, no queen, no law, everybody works for the good of everybody, without any government.

And who are more intelligent than ants and honey bees? We are much more intelligent, so why do we need governments and powers and police. We don't need them, but they want to keep it.

Some people have the power and the money and they want more. They want everybody else to be slaves, to work, pay taxes, obey, no freedom, that's what they want, but for them freedom, money, power, everything they want and corruption. And this is true everywhere.

So the real revolution to come is a revolution that is not changing the government but destroying any form of government.

In a future humanity, we don't need any government.

Geniocracy, yes, it's good, to have a group of geniuses, intelligent people together, thinking about what kind of future humanity can have, and giving ideas and people accept it or not, but no power. Because power destroys freedom, creates violence, creates poverty, creates hunger.

If the whole humanity is like a big ant hive, everybody works for everybody, we love each other, we do the best for each other, we don't need laws.

There is no need for laws. There is no need for a law saying "you must not kill anybody".

Who wants to kill somebody ? Only sick people. They need a hospital, they need to be cured, because they are sick. People who want to kill other people are sick, it's a medical fact.

More and more doctors and scientists agree to say that there is a problem with the brain of the people who are violent. And this violence is created by the society.

The society, the government, the laws, create sick people. Then sick people kill other people, and then the government says "you see, you need us, you need laws". This is completely wrong.

No more government, no more social pressure, no more police, just the natural law.

Who wants to kill somebody ? Is there anybody here who wants to kill somebody ? I don't know anyone who wants to kill somebody, except sick people. So we don't need a law saying "you must not kill". If there was no law saying "you must not kill", would you kill somebody ? No, nobody wants to kill, but they say "you need a law to protect you".

There is no law in the ants hive saying "you must not kill". They never kill each other, and when one ant brings food back to the hive, every other ant comes and helps.

Cooperation is the future of humanity, everybody working for the good of everybody, without the most terrible poison of humanity : government, police and law.

When humanity will have destroyed governments, police and law, this planet will be a paradise.

And then Paradism will be in place, of course with no money. Money is the fruit of power and government. You all have money in your pockets ? Who is making this money? The government, and they use it to have power over you. Take one bill, Japanese yen, dollar, Euro, what is it ? Is it gold ? Silver ? No, it is just a piece of paper.

A piece of paper and they say "wow, look, I'm very rich". Wait a minute, it's only paper. "Yes, but it's written 1 million dollar". Is that piece of paper worth 1 million dollar because it is written on it? No. Who wrote it ? The government! So that's all based on government lies.

Put all your money in a box, how much is it worth? It is worth the weight of paper. Almost nothing, but you believe, but

in the future, very soon, everybody will bring all the money on public places, and burn everything. Because we don't need it, if everybody works for the good of everybody, everybody helps each other.

The future of society is without money because money is a poison given to you by the government.

Being a Raelian, is not only being a Messenger of Infinity, not only being a Messenger of Elohim, but being the most revolutionary people on earth. That's what you are.

Because speaking of love like a Buddhist monk, saying "Om", that's not love.

Love is changing the society, so everybody has food, so everybody is safe, so nobody anymore is starving to death. That's our planet, our world, and to be Raelian is to change it, for a beautiful future.

That's why the Elohim need you.

The Elohim gave us a Message not only to explain where we come from, not only to explain why we are here, but to explain what beautiful heaven we can create with this planet, if we apply their teachings, which are : destroying all powers and governments, destroying money, and creating one unified planet. That's why the Elohim need you.

Following the publication of this speech on Raelnews, a Guide sent Maitreya the following question:

Dear Maitreya, after reading your speech saying that we don't need governments but cooperation, I am wondering if the path we follow today is right, that is creating political parties in favor of Paradism around the world which is what we are doing now. Before spending too much time on it, I want to ask you if it is better to devote time to push this revolutionary statement so that people are more aware or if we should really go into politics. Time flies and it is urgent that we act but I want to make sure that we do it right from the start and I am asking you my Guide to help me to understand the right path.

Here is Maitreya's answer:

Both are complementary, and even the three of them. Natural Anarchy (the natural order when no power is in place) includes Paradism where work has been taken over by robots and computers. It also includes geniocracy where the most intelligent people gather to guide and council Humanity without using any power. So the best path is to push forward all these ideas in parallel. A political party that proposes Paradism can be in favor of Anarchy and Geniocracy at the same time. To summarize, this party could be called the Paradist-Anarchist-Geniocratic party or any other combination of these 3 words.

RAEL: 'THE BILLIONS WASTED IN LIBYA WOULD BE MORE USEFUL IN JAPAN!'

"Shouldn't a Nobel Peace Prize recipient like Obama have the honesty to return his prize after leading this attack on Libya and killing the civilians he claimed to protect?" he asked, adding that leaders of the world's major powers "are once again proving that they're afflicted with profound mental confusion."

"While 300,000 homeless people desperately wait for relief in Japan and a nuclear power plant pollutes the entire planet with radiation that will cause millions of deaths, they're using their technical means and their billions to bomb Libya," he said. "If all the ships and funds turned into smoke by this illegal aggression against an independent state were to be used in Japan, it would, for the first time, point out some usefulness of the military forces and show real solidarity with the civilians who suffer."

Rael said Western leaders aren't being honest about why they are at war in Libya.

"The pretext of protecting civilian populations is totally fallacious," he said. "Even if a brutal regime commits the crime of killing a few hundred revolutionaries, that doesn't compare with the hundreds of thousands of civilians who need help in Japan. And that help wouldn't threaten anyone's sovereignty."

Rael went on to explain why Libya was singled out for aggression by the West when it fails to help the suffering civilians of other countries.

"It's clear that if China were to go through a new Tiananmen, with a few hundred or even a few thousand students killed,

no one would lift a finger,” he said. “They intervene in Libya only because they’re sure of their overwhelming superiority there. So immense is their cowardice that they attack only the weak, under the pretext of protecting democracy.

Rael said the pretext of protecting civilians with a no-fly zone is even more fallacious and hypocritical.

“Why isn’t there a no-fly zone over the Gaza Strip?” he asked. “There are civilian populations to protect there as well. Are they less important than the Libyan people? Or is it because Israel is untouchable even when it massacres civilians?”

Rael then issued a plea to those participating in the war.

“I ask all Western countries to evacuate all Western armed forces deployed in and around Libya and that they send them to help Japan re-house the homeless and solve the problems at the nuclear power plant. It’s the only way they could prove they’re really concerned about the fate of the world’s civilian populations and not about oil.”

ABOUT COMPASSION

A Guide who is a taxi driver was explaining in front of Maitreya how he manages to keep his harmony at work, despite the anger and bad emotions of his clients. He is a taxi driver in Tokyo.

Maitreya took this opportunity to explain what compassion is and what he expects us to do to help others. Here are some excerpts of what he said:

It’s good to put yourself as you said : “in a neutral state”, so that you are not affected by the people who tell you or do bad things to you. But that’s not enough.

When you do that, you just say “nothing will affect me, give me your garbage and I will not be affected!”

When people are bad, when they insult you or show disrespect to you, it is indeed a kind of garbage; But why would they do that ? They do it because they are suffering, because they have had a bad day with their wife, a bad day with their manager, a bad day maybe with their health, a lot of problems and suddenly, they build so much anger, they find somebody to say, to give bad things.

So the people who are mean, angry, insulting, are not bad, there is no bad people, they are just suffering. They are just not happy, they are just depressed, desperate. They have so much garbage inside themselves, they need somebody to throw it at.

So when people are mean to you when you are driving, it is not enough to say ‘I am not affected’.

Compassion is to think of the amount of suffering this man or this woman must have to be so bad, so disrespectful with you; “this person must be suffering so much, that I need to help”.

To be neutral is not enough. To say “I will not be affected, no problem”, it’s just controlling a bad emotion. Instead, it is better to enter a good positive emotion.

If somebody insults me, I can say “no, I will not enter into any negative emotion” or I can say “poor man, he’s insulting me, he must be feeling so bad, maybe he is sick, maybe he has a bad job, maybe a bad wife, what a pity”, and then you try honestly to help him, not only by accepting the garbage, but by telling “give me more please, you have more anger, please give it to me, I want to make you feel better” and that becomes love.

And when it’s love you become so much better.

Not only tolerating by saying “ok you can be angry at me, I will, like a Buddha, have no emotion”, that’s not love. Love is “you are angry, please give me more, give me all your anger, I want to help you”.

And what happens after?

When accused of doing a mistake when in reality it is not their fault, normal people will try to show it is not their fault and defend themselves. You can go one step further and say: “I will not be angry, this man is feeling bad, so I stay neutral, no

emotion”.

One step even further, when accused of something that is not your fault, is to apologize.

The guy is angry asking you why you didn't pass through the signal, bla bla... You tell him : “I'm so sorry”. Although it's not your fault, you cannot change the color of the signal, but you say : “I'm so sorry, it is so terrible that I make you arrive late, so sorry” and “I hope this is not too bad for your job or for your life”.

And then the people will say “yes it's terrible because, because, because...”. And he will start to feel better, and your goal, that's our goal on earth, is to make people feel better.

Giving love is not only receiving the shit of other people but helping them give us their shit. If they are full of shit, full of bad emotion and they give you a little, ask them “give me more, I have love and compassion so I want to help you, you give me a little shit, I want a big one”. “Please don't be constipated with your emotion, give it all, because I love you and I want to help every human being”.

And then people slowly give more, and then after they will feel better. Most of the time, they will apologize, because they will realize how bad they have been.

That's our goal, to give love, to give angry people the possibility to give us more anger. To give angry people the possibility to insult people, to insult us more. If somebody tells me “you are a stupid foreigner, you are stupid” I will say “please give me more!” I know I'm not stupid. So why should it affect me ?

“I'm sorry to be stupid, I'm very sorry.”

After that, people will feel better, but it doesn't change my level of stupidity or intelligence. If I'm intelligent, I will be forever, and if I'm stupid, this guy is helping me by telling me the truth. In anyway it's good, so don't be angry, accept the people and ask them more.

If you make yourself able to receive all the shit of the world, then you become a Buddha.

Then you become love.

‘Give me all your shit, I take everything and I change it in love’, that's our mission.

ABOUT KINDNESS

We don't talk enough about kindness.

I want to say something special about Okinawa. The people of Okinawa are so special.

Every time I walk around, we speak with farmers and they are all so kind, they give me vegetables. If I ask them what this vegetable is, they cut one and give it to me.

That's really fantastic, I love the kindness of Okinawa people. It is very different from mainland Japan.

Japanese are very kind also, but here everybody is very very very kind and soft.

Kindness is so important, we should be kind with everybody like that.

We need to be kind with each other, we need to really be full of love, what is love if it's not being kind.

You cannot have love if you are not kind.

And we cannot change this planet if we are not very very kind with each other.

So love starts with being kind with everybody you meet, not only the Raelians, but everybody.

Being warm and full of love for everybody not only makes everybody feel good but it makes yourself feel good also.

The modern world is so much about success, competition and making money. All this is bullshit.

The only thing important is love, being kind and having pleasure to be together, and also showing kindness to other people who are not Raelians.

That is the best way to advertise for the Message of Elohim: be kind, be kind with everybody.

Because when you die one day, all the money you have accumulated, all the power you have accumulated is like dust.

To give you eternal life, the Elohim will judge you on your kindness, on your compassion, on your love.

That's why we must be kind with each other, and put always a smile on your face, that's the best start to be kind.

The farmers of Okinawa that I meet always smile. Are Okinawa people more happy than those in mainland Japan? Maybe I understand why, because it's beautiful, but I think it's a kind of philosophy also. Would you say that Okinawa people are a little bit slower than people from mainland Japan also?

Yes! That's good! People in mainland Japan are too fast, I see them running and running. Okinawa people are good models for the Japanese as this stupid culture of success, competition and money is soon to disappear.

Once it happens, what will be important after ? Love, kindness, harmony,

That's what I hope you will remember from this meeting : to be kind to each other.

And the first step to be kind is to smile.

You cannot be kind with other people if you have an angry face. You cannot say : 'I love you' with an angry face! A smile speaks by itself.

A smile makes people relax. A smile makes people slow down and suddenly kindness can take the place.

Some people are not very kind, some people are a little bit aggressive. Is it good to be aggressive in return? Absolutely not.

When you meet people who cannot stop being aggressive and who are not kind, it's time to be more kind. Thanks to that all their aggression will fade. If somebody cannot stop being aggressive with you, give more love.

It's not important to be the winner when two people argue, it's important to be the kindest. And if it makes the other person happy to believe she or he is the winner, let him or her believe she or he is the winner.

Yes you are much better than me, I feel good! That's kindness, and you lose nothing.

If I meet somebody who is very aggressive, I say 'you are so kind', so much better than me'. That doesn't

remove the fact that I am Maitreya, but this person feels good, very good, and when she feels good, she has more chance to become relax and more kind.

So instead of fighting, give love. Smile. Give kindness.

I remember one time I was arrested by a police officer in America. I was driving the car, maybe a little bit too fast, so the guy came, very aggressive and I smiled and I said : “wow, that’s very important what you do, you are protecting people, ‘what a difficult job you have, and it must be very very difficult because people are angry when you stop them”.

And I could see his face changing, because he was used to people saying : “no, why do you stop me, I’m not...” and I was just trying to understand if this guy was happy with his job. He was almost crying because I was saying “what a difficult job you have”. In the end he let me go, without a ticket!

So kindness is always good, be kind with everybody, give love to everybody and your life will be more beautiful.

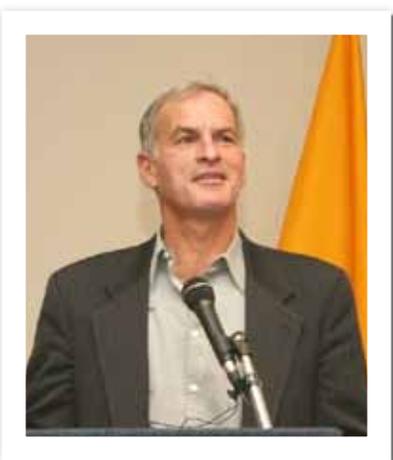

The Elohim were very very kind to give us the Message and their teachings. Love, kindness, compassion, feel it, feel it, breathe it. Let’s breathe kindness together .

Look at these beautiful people around you, look look look, open your eyes, besides you there is kindness, and love, all around. And our mission is to spread that on the planet.

NEWS AND VIEWS

ILAN PAPPE NEW HONORARY GUIDE

Pappe was born in Haifa, Israel, he is a professor with the College of Social Sciences and International Studies at the University of Exeter in the UK, director of the university’s European Centre for Palestine Studies, co-director of the Exeter Centre for Ethno-Political Studies, and political activist. He was formerly a senior lecturer in political science at the University of Haifa (1984–2007) and chair of the Emil Touma Institute for Palestinian and Israeli Studies in Haifa (2000–2008) but was asked to resign because of his political activism where he supports economic and political boycotts of Israel, including an academic boycott. He believes boycotts are justified because “the Israeli occupation is a dynamic process and it becomes worse with each passing day. Pappé has initiated the annual Israeli Right of return conferences, which called for the unconditional right of return of the Palestinian refugees who were expelled in 1948.

NORMAN FINKELSTEIN NEW HONORARY GUIDE

Norman Gary Finkelstein is an American political scientist, and author. His primary fields of research are the Israeli-Palestinian conflict and the politics of the Holocaust . Beginning with his doctoral thesis at Princeton, Finkelstein’s career has been marked by controversy. A self-described “forensic scholar,” he has written sharply critical academic reviews of several prominent writers and scholars whom he accuses of misrepresenting the documentary record in order to defend Israel’s policies and practices. His writings, noted for their support of the Palestinian cause, have dealt with politically charged topics such as Zionism, the demographic history of Palestine and his allegations of the existence of a “Holocaust Industry” that exploits the memory of the Holocaust to further Israeli and financial interests. Citing linguist and political activist Noam Chomsky (another Honorary Guide) as an example, Finkelstein notes that it is “possible to unite exacting scholarly rigor with scathing

moral outrage” .

GERALD KAUFMAN NEW HONORARY GUIDE

For his forceful defense of Palestinians against Israel.

Kaufman is a member of the Jewish Labour Movement and one of the leading critics of Israeli policies. Kaufman has called for economic sanctions and an arms ban against Israel, citing the success of such measures against apartheid South Africa. He has called Israel a “pariah state”, which has turned away from its original image as a beacon, and called Israel’s senior politicians “war criminals.”

In January 2009, during the 2008–09 Israel–Gaza conflict, Kaufman gave a speech to the House of Commons where he stated: “The present Israeli government ruthlessly and cynically exploits the continuing guilt from Gentiles over the slaughter of Jews in the Holocaust as justification for their murder of Palestinians.”

About his own family experience he said: “My grandmother was ill in bed when the Nazis came to her home town. A German soldier shot her dead in her bed. My grandmother did not die to provide cover for Israeli soldiers murdering Palestinian grandmothers in Gaza.”

Kaufman also made a comparison between Hamas members in Gaza to the Jewish resistance during World War II, saying: “The spokeswoman for the Israeli army, Major Leibovich, was asked about the Israeli killing of, at that time, 800 Palestinians. The total is now 1,000. She replied instantly that ‘500 of them were militants’. That was the reply of a Nazi. I suppose the Jews fighting for their lives in the Warsaw ghetto could have been dismissed as militants.”

He was the leader of a large European parliamentary delegation to Gaza in January 2009 during which he said that Israeli officials who authorized the use of white phosphorus in densely populated Gaza should be tried for war crimes.

IXACHITLAN

**IXACHILAN
HAPPINESS
ACADEMY IN
COLOMBIA: THE
MOST BEAUTIFUL
EXPERIENCE OF my
life!**

As I arrived to the Raelian Monastery many thoughts were going through my mind. How would a seminar be without our beloved Prophet?, how well could it be orga-

nized if we were just a small group of people, how much commitment towards living a Raelian life would there be among the Raelians from Ixachilan?

Then the first thing I observed as I arrived to the Monastery was a sign that read: "In this place we allow nudity", from then on I was just thrilled to live the moment to the fullest. Having gone to Las Vegas seminar twice, I was going to be able to appreciate even more the effort done by all of us who were involved in helping to make this seminar the best possible. We were 48 conscious human beings from Colombia, Panama, Mexico, Venezuela, Peru and US, respectful and loving towards each other, like I have never seen before. It was so intimate, so special. Some people traveled for more than 48 hours or quit their jobs just to be there. Our beloved Bishop, Norma Toral, was in charge of the teachings of our Maitreya and she gave them so good, studying them with a lot of efforts for many days and nights so that they were not distorted in any way. The theme of the seminar was Freedom and that is how we felt for the whole week. It is quite different to do a seminar in a place where nature and clean air surrounds us completely, unlike a hotel; I guess it is something to which many Raelians can relate from their past experiences in Valcourt.

The stages for the events of each night were so beautifully done, with a lot of creativity by our lovely angel Raquel Vergara and Raelian brother Richard Marquis who with little resources, created wonders. Each one of us, men and women, were soooooo beautiful, soooooo conscious, full of love, living an authentic Raelian life. We created an eternal bond. It was like if we had met our whole lives, though for many of us it was just the first time. The consciousness neurons had made connections that became unbreakable through love. Many thanks to the National Guide of Colombia, Alan Rojas for his vision and leadership, to the wonderful family of Oscar and Bertha Orozco, who donated the whole Monastery to the Raelian Movement while being alive, wow, that tells a lot about these amazing human beings, and of course, there are not enough words to thank Norma, who made everything possible, I love you so much. My commitment is to go each and every year to the Seminar in Colombia and help in every possible way, which includes making diffusion so that the number of people going to the Monastery in the coming years can be more than 150, and then our Beloved Prophet will be with us. Ixachilan does not have a great wealth and many of their people are neglected their visas to go to the US or Canada, being those the reasons why many long time Raelians have not yet had the opportunity to go to a Seminar and meet our Beloved Maitreya.

Raelians from Ixachilan are hungry for you dear Maitreya. We miss you so much, but we promise you, that we will gather the people needed and have you there soon. That is our impossible dream. Thank you, for making us constantly live the most beautiful moments of our lives.

I love you all

Erich Rever - Peru

AWESOME SEMINAR IN IXACHILAN!!

The Seminar was a religious experience in all the senses of the word: starting with the fact that the location is beautiful, with a breathtaking view surrounded by nature, flowers, birds; a typical countryside with a chilly delicious weather. It looks like paradise, and the fact that you are allowed to be nude around, it really connects you with all that we are made of and where we come from: the infinite.

I have had the chance to participate in the Happiness Academy in Las Vegas before, and I think this experience in Ixachilan is different in terms of the connection with our being and our human essence; also the fact that we are much less participants, adds a more personal touch and an innate harmonization.

The chemistry that you feel in the instant you meet other Raelians is an indescribable sensation, just as if you knew them for all your life.... It happened to me with Alan, Angel Humberto and all the other Raelians from Perú, México, Venezuela, Colombia.

Norma gave me the honor to participate as organizer helping Raquel in everything related to all activities, and I thank Norma for trusting me and giving me such responsibility... It's such an honor.

This experience has made me grow in all aspects: with different sensations during the activities and the workshops that I never thought I could feel.

I know more myself now than before the seminar; having taking part in the organization team and at the same time in the audience group, made me feel an integral part of a whole.

I felt I was part of the seminar, that exceeded my expectations, and I had this revelation during one of the activities: I was very sensitive from the very beginning, to the point that I felt like crying, I was ecstatic, happy in all the sense of the word; it was a beautiful ceremony, that activated my all 5 senses and in that precise moment I knew that I was being happy serving, helping and loving our fellow men, I realized I was happy and that I wanted to continue being part of this seminar team.

Throughout all the activities and workshops of the seminar you keep feeling loose and outgoing more and more, just like a butterfly that starts coming out from its cocoon, until finally grow wings. I am so sure that new neuronal wirings were rooted in my brain during all the seminar.

NORMA is my hero, I could feel her teachings in the deepest of me, it's amazing the way she connects and interact with the audience, captivating our attention all the time; she gives herself a 500 % into this task and I am so sure that her words made strong first impressions in the newbies and sympathizers, whom most probably will become Raelians very soon.

It's relevant to mention the dedication of Raquel in all aspects of the seminar: she is a very creative, active and participative person in the dynamics of the organization, that give herself the same as Norma into this task.

I feel very honored for having been given the Level 3 in the Structure, and I thank my National Guide Carlos for the support, as well as Norma for scratching my consciousness to take the decision to participate in this seminar. The truth is that I never thought I would be given such appreciation and I feel very humble to receive it, with the promise that I will keep working with my heart and consciousness, with lots of love and passion. I have made the promise to keep assisting to the next Seminars in Co-

lombia, since I have learned from it that I was born to serve, and that it makes me happy to contribute to the happiness of others.

I hope to keep receiving the teachings of my National Guide Carlos and our Bishop Norma, in order to keep being happy by being part of my big family: The Raelian Movement.

It is incredible the work of our dear Colombian brothers in the organization of this seminar, without ignoring the deserved acknowledgment to the family of Oscar and Berta Orozco who donated their land to build this nice replica of the Embassy for the ELOHIM.

I am counting the days to experience again the best Happiness Academy in which I have participated so far in my short Raelian trajectory.

Keep Smiling

ALCI - (Level 3) Panama (on the picture with Norma)

KAMA

CONGO - GIORDANO BRUNO : A HOMAGE TO HIS COURAGE

On February 17th, the Raelian Movement of Congo celebrated the anniversary of the murder of Giordano Bruno who was burned alive in 1600 by the Catholic Church for his beliefs in Extraterrestrials. We organized a large diffusion within the University, college and High School communities. It has been a full day dedicated to this visionary man.

It was just across the University Marien NGOUABI, a very popular place that is always full of young people and people from all professions, that the Raelians implanted 3 tents where people could see pictures and videos about the life of Giordano Bruno as well as videos of Maitreya Rael talking about Giordano Bruno. They also took this opportunity to give the latest scientific information about the cosmos and our universe.

We were barely done with building the display that we were already invaded by a load of young students eager to get information and knowledge. For 7 hours, the 60 structure members who were there had no time to rest. The audience was so receptive that we could see the joy and the beauty of their work on the faces of the Raelians. We had two visiting Guides, Moussa SOURA, National Guide of Senegal and Djala LEMPA Assistant of the national Guide of Gabon.

We also received the visit of many journalists from radios, TVs and newspapers. The national Guide Tshiélikk GOMAT (on the picture) as well as Adé CHISSO, Mwènè NDZIMBA and NIKA Makuezi gave interviews in French, Lingala and Kikongo. All these interviews aired on the 3 radios and TVs of Congo. They were focussed on denouncing the Catholic Church for its crimes, illustrating them with the murder of Giordano Bruno who refused to change his positions about the infinite of space, the infinite of time and and the infinity of planets with an infinity of extraterrestrial lives.

He also said then that Jesus was not a god, that the Trinity didn't make sense and Mary was not a virgin.

The Raelians managed to touch more than 4000 people and they also officially asked the Congolese authorities as well as the pope Benedict XVI to erect a monument in memory of Bruno and of the great things he brought to Humanity. We also asked the pope to finally apologize in the name of the Church, for the murder of Giordano Bruno. Three days later, the national Guide was invited to the main news show of the most popular radio where he again lambasted the Catholic

Church.

Just like Jesus, Bouddha or Kimbangu, if Giordano Bruno was alive now, he would be Raelian !

OKALABOUHOU Yieiéphoun, Regional Guide, Mfoa

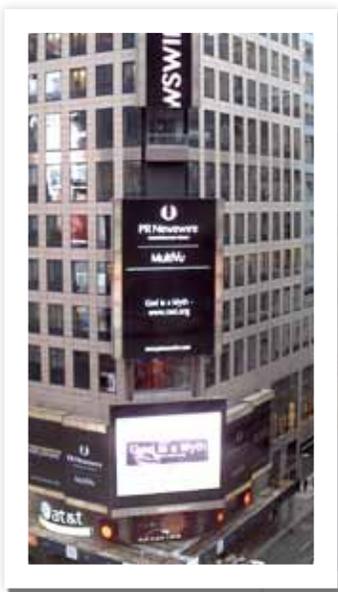

LAMANE IN KENYA

Lamane, level 5 Guide, assistant to the Continental Guide Tai, was in Kenya for the first Sunday of April celebration. He did 21 transmissions on that day. Welcome to all the Kenyan pioneers!!! (on the picture on the left)

NORTH AMERICA

US, GOD IS A MYTH

A few billboards on Highway 15 at the exit of Las Vegas have been disturbing a few of us Raelians living in Vegas as they praise god, trying to put guilt on the people driving along. Ricky Roehr, the leader of North America who lives there decided to balance the information given to the drivers and had this nice billboard erected about a month ago. It will stay there for 6 months or more :-)

It was even shown on Time Square, New York for a few minutes as a news story on the day it was posted... So much fun to see the reaction of our friends texting us... 'eh I saw your billboard, so cool ' :-) Every day, thousands of people are reminded that 'there is no god' ... they should soon get it ;-)

DIFFUSION IN GUYANE

The French Guyane is a department of France and for this reason, it was a challenge for the Raelian group from Quebec to go there for diffusion. Donald Tremblay, Diane Pagé, Marcel Lebeuf and Nicole Gravel took over the mission to help people of Guyane to discover the message of our Creators and to build a team locally so that they can start the Raelian Movement of Guyane.

We went through the streets full of a crowd attracted by the ongoing carnival, under a strong heat and between heavy rains, and manage to place our posters, hand out 800 pamphlets and establish wonderful contacts. Guyanese people welcomed us with kindness and a shining smile, feeling honored to be invited to our conference,

Thanks to an ad that we placed in the newspaper " La Semaine guyanaise " and in two radio stations that conveyed it to their audience (more than 9000 people) we had 32 people showing at the conference on March 10. We sold 25 books and 2 meditation CDs.

On March 12 we had a post conference meeting with 3 people who wanted to help with the diffusion of the messages and who agreed to be members of the International Raelian Movement.

I nominated Iscaye Rosaire, level 2, in charge of diffusion

David Morin level 1

José Burel, level 1

It is a beginning for the French Guyane!!!

See you tomorrow at the Embassy . . .

Donald Tremblay, National Guide for the French Guyane

RAELIAN MINI SEMINAR IN PUERTO RICO

We celebrated on April 3, 2011 the first Raelian mini-seminar in Isabela, Puerto Rico. Isabela is a small town located at the northwest part of the Island. The place of the event was in a paradisiacal villa in front of the ocean known as Villas del Mar Hau. The weather was with us, plenty of sun in front of the ocean and not windy. In this event, we emphasized that we are the consciousness of humanity and how important it is to transmit the message of the Elohim to humanity. As the Maitreya said-"the messages are a vibration coming from infinity, they are the electromagnetic vibrations coming from the Elohim to their messenger"-Raelians in Puerto Rico we are conscious that we are part of the chain reaction of these vibrations and that we can be connected and transform these vibrations into love and happiness. This is why my main objective in the seminar was: transforming vibrations into love and happiness in an environment full of harmony. To reach this objective we meditated and the most important thing, we laughed from the beginning to the end of the seminar. In our meditations we got linked to ourselves, to the environment, to the Elohim and to infinity.

On the other hand, we talked about science and technology especially about stem cells, aging and the scientific evidence about the importance of fasting. Also, we discussed the most recent Raelian news and the Raelians at the seminar shared their opinions and made questions related to the last message of Yahweh to the Jewish people, and the UFO that appeared at the Dome of the Rock-Temple Mount of Jerusalem. All the Puerto Rican Raelians enjoyed this mini-seminar and we are eager to go back. Thanks to all the Raelians who came to this event, Adrian Girald, Jose Davila, Samuel Caban, Ovidio, Haydee, Carlos de Juan, Jose Luis, Francisco...I hope that next year 2012 all the Raelians in Puerto Rico can come and enjoy the seminar.

We will continue doing this seminar in the same date every year

in Puerto Rico. Was a very beautiful experience!

Thanks beloved Prophet for your teaching and love, the Raelians of this country dream of welcoming YOU soon...

A lot of LOVE!

Willie Girald, National Guide of Puerto Rico

ANOTHER LEGAL VICTORY IN CANADA

A tribunal in Ontario has found the restaurant Patty Bolands guilty of discrimination against 7 Raelians.

In its judgment, the judge requested that the personnel of the restaurant follow a training on human rights, a training that is offered at the tribunal.

The story started in August 2008 when 7 Raelians went in the streets of Ottawa to invite people to a mini-conference in a restaurant to talk about our philosophy.

The Raelians were handing out pamphlets showing the address of the restaurant where the conference was supposed to take place. A Raelian had reserved the place before hand. When the Raelians arrived in the restaurant to give the conference, the owner of the place was very upset that his restaurant's name has been used on our pamphlets and insulted the Raelians before expelling them.

We filed a lawsuit right away to the tribunal for human rights in Ontario. On March 22nd, the restaurant owner was found guilty of discrimination against the Raelians...

EUROPE

ITALY, CLITORAID

On Saturday, February the 26th, Roberta Pucci (who is in charge of the Rome area), has organized a very nice and original event to collect money for the Pleasure Hospital in a shopping center in Rome.

She and her team were dressed like Dr. Patch Adams, with white work clothing, funny wigs, red noses and big glasses. There were also our special magicians, Giovanni Ottaviani and Andrea, to entertain people with conjuring tricks. The bystanders really appreciated this organization smiling a lot and being generous, in fact we collected 316.00 euros with big fun and pleasure! To be continued...

NB: Since the beginning of the year, the association in Italy has raised the total sum of 2,896 euros

EUROPE WINTER HAPPINESS ACADEMY IN NUNSPEET, THE NETHERLAND

Thursday the 3rd of March about 70 people gathered for the English Winter Happiness Academy which is organized every year by the Raelian Movement, in a characteristic hotel.

Dennis Van Dorp, Raelian trainee guide, tells us...

Like for every Raelian meeting, people came from all over the European continent, and even further; Brazil. This is a wonderful demonstration of the main theme: Oneness, without separation between countries, continents.

Feeling connected

These academies are organized to practice meditation, to learn, to laugh, to enjoy the pleasure to be together and to feel connected. The meeting started on Thursday afternoon. The conductor of this seminar was Marcus Wenner, Raelian Bishop Guide and responsible for teaching in Europe. This seminar was an exceptional moment to share experiences and opinions about important subjects like choice, the meaning of responsibility, love, human qualities, education of children and feeling connected to each other.

Shirley Sooden, Raelian guide, developed a powerful exercise about fears, which limit the possibilities of human beings.

Power of touch

The teachings given by Marcus emphasized also the importance of touch, something which is currently in our society only associated with sexuality. This is however, one of the most important ways to connect yourself with the other people around you... Marcus has shared the fruit of his research. "Touch is essential for baby's development. If you deprive them, their brain and body will not develop properly. Touch is vital for adults too. It maintains a healthy immune, hormonal and nervous and psychological system"(1)

Emma Reyes, Raelian Guide, led an exercise and everyone could feel the oneness through dance and bows, moving all together in the same rhythm, like only one organism.

On the last day, Daniel Mican, Raelian Guide, and Dennis van Dorp spoke about the connection between computers/networks and the human brain and the possibilities which will arise from that.

This seminar was a wonderful foretaste of what Planet Earth could be and is a foretaste of the coming Summer Happiness Academy.

BARCELONA, RADIO INTERVIEW TO LOONA, SPOKESPERSON FOR SPAIN

On March 19th, Princess Loona, spokesperson for Spain, was interviewed by the radio station “Punto Radio” of Barcelona.

It was not the first time that this radio station invited Loona to speak about the Movement’s philosophy and goals for their program “Luces en la Oscuridad”, and this time, the contact was initiated by the press release the IRM made concerning the UFO sighting at the Dome of the Rock in Jerusalem, at the beginning of this year.

Two interviews took place on March the 19th. The first one was focused on: The Messages received by our Beloved Prophet, the Elohim, and our goals, and the second interview was focused on: the Earth People Organization Website which speaks about Paradism and the future of humanity (<http://www.earthpeopleorg.org/>).

Pedro, the host, as always was most respectful both with Loona and with our philosophy, and even invited Loona to visit their radio station the next time she travels to Barcelona for another interview, to which Loona agreed saying that after the interview they could “go dancing together”... thus ending the interview among sounds of laughter.

Love, Elo (responsible for Spain)

PETRA AT X-FACTOR

I am back Jfrom England where I participated to X-Factor. Some of you that I was going there for an audition and I wish to tell you what happened there.

I was there with Sakina and her friend Joei from Manchester. The audition was scheduled to start at 8:00am on Saturday. We waited in front of the Stadium until 1pm. The people around were passionate like me and it was a very nice atmosphere.

Once inside the Stadiumwe had to wait until 5pm for my turn to sing and finally the moment has arrived.

There were lost of little booths with one person listening to the candidate singing so it was easy to listen to the song. I had to go in front of a woman who I can tell from a distance wasn't really interested, maybe also tired? When I arrived in front of her, she asked me where I was coming from and my age and then she quickly saw my symbol that was slightly covered by my blouse and she started to ask questions about it. What is this? I answered that it is the symbol of Infinity but her eyes were not satisfied, I could tell that she was thinking of the symbole of Hitler, so I explained to her what is the swastika, the oldest

symbol of the world that Hitler highjacked and dirted. She answered 'do you really believe that?'. 'YES, I believe in the Infinite". Her face was negative, I could feel that something wasn't right.

She let me sing and then said no.

After that I felt lots of emotions linked to this injustice. She judged me for my symbol, not for ny singing.

I think that this moment helped me to love me more, to love what I believe in. maybe this was a test for me to know if I was proud of being Raelian and of wearing this symbol. I can answer ' Yes, very proud'. It is just too bad that she wasn't professional.

Some of you know that my dream has always been to be a professional singer and this was my chance but I don't regret anything because after the refusal, I felt love for the Elohim and this is stronger than my dream.

Thank you for being alive at the same time as me, I have an extraordinary family, full of love and consciousness. I love you with all my heart and thank you for your love. A big thank to Sakina and Joei who gave me love and stayed with me the whole day and of course to the marvellous Marcus whom I thank for his teachings so full of love. We are ONE!

FRANCE. KIMBANGU IN HUNGER STRIKE

French Raelian leader declares hunger strike to protest discrimination against minorities in France.

Civil servant of FT/Orange now three days without food in front of Moselle Prefecture

In a statement released on April 23rd, the International Raelian Movement announced a hunger strike by its national leader in France. The strike, now into its third day, was launched in front of the Moselle Prefecture on Thursday.

Kimbangu Mundele Piffer, technician for 32 years at FT / Orange (formerly France Telecom) said he had decided, as a last resort, to begin a hunger strike to protest discrimination against minorities in France, including Raelians. He cited 6 years of vain attempts to communicate with French administrative authorities and agencies of civil rights, including the Prefecture of Lorraine and HALDE.

"I tried everything with my employer, Halde, and with government agencies and even with the Elysee and the United Nations: correspondence, vigils, free hugs and complaints," Piffer said. "But there was total disregard for those attempts. For six years I was an unwanted and despised citizen. The authorities will have to face up to their decision and either admit to the reason for their discrimination or watch me die, because I will not give up. The situation of the Raélians I represent and of all religious minorities in general has become intolerable in France, and I see no other solution than to die to remind the French that human

rights also apply to members of religious minorities.”

In 2005, Piffer was denied renewal of permits allowing him access to the EDF nuclear power plant of Cattenom in Lorraine, although he had previously worked in sensitive areas many times using his well-recognized professional skills. He immediately tried to learn the reasons for the non-renewal, taking multiple steps with the director and head of security at the plant, with the prefecture and with many other institutions, all to no avail. He is now convinced that he was evicted from Cattenom because of his membership in the Raelian Movement, which is a stigmatized religious minority in France.

Piffer said the French government has waged “a vile witch hunt against so-called cults for over 20 years.”

“Since the creation of the infamous blacklist of philosophical minorities established in 1995, many Raelians have suffered from assaults and some have had death threats,” Piffer said. “Others have been fired or lost custody of their children for the simple reason that they are Raelians. No media outlets and few philosophers are worried about this. Yet the only other state to have established such a blacklist was the Weimar Republic led by Chancellor Adolf Hitler. Through an enormous manipulation, an entire population believed in the merits of that list, which was established on Feb. 28, 1933.”

Piffer said French people are being manipulated today in the same way that the Germans of the 30s were manipulated, and with the same type of list.

“We will not let them reduce our freedoms any further,” he said, adding that a support committee has been formed between Raelians and members of other religious minorities, both in France and abroad, with the aim of mobilizing freedom defenders to express support for Piffer’s hunger strike.

“I thought for a long time about my decision,” Piffer said. “If my action helps to open the eyes of some of the French and can alert international authorities to the blatant disregard of human rights in France, then I will have accomplished my mission. Before sending the army to fix a supposed constitutional problem in Côte d’Ivoire and Libya, our government should ensure that it respects its own constitution, not just for the majority of people in France, but even more so for minorities. As rightly pointed out by Rael, my spiritual leader, human rights were not enacted to protect the majority. The majority is very well protected simply because it is the majority. Human rights laws were instead designed to ensure that each individual who thinks differently has the right to do so, and to share and thereby enjoy the same rights as those who follow the thoughts of the majority. I am now ready to die for my country to relearn the meaning of ‘human rights.’

To express your support to Kimbangu.... you may call the Regional Prefecture at:

+33 87 34 87 34

or the organization in charge of Human Rights in France, La Halde :

+33 8 1000 5000

MIDDLE EAST

VAGINA MONOLOGUES IN ISRAEL APRIL 2011

We had the privilege to attend the performance of Vagina Monologues in IsRael. This gave us a great opportunity to promote Clitoraid in the lobby of the Dimond Theater of Tel Aviv.

The organizer Nitsan was really charming. She was so kind to give us 3 free entrance tickets.

This performance not only denounces violence against women but awakens minds by speaking about the vagina, orgasm, masturbation, and many other subjects related to sex. They also mentioned Betty Dodson, famous Sexologist, Artist and Author who is very dedicated to the Clitoraid cause

It is fantastic to have this kind of performance in countries of the Middle East where sexuality is still taboo.

We were at the right place to promote the Clitoraid project and had a great success with the public.

A ZEN MONK

This is about an old Zen monk. He was on his deathbed. The last day had come, and he declared that and that evening he would be no more. So followers, disciples, friends started coming. He had many lovers. They all started coming. From far and wide people gathered. One of his old disciples, when he heard that the master was going to die, ran to the market.

Somebody asked: The master is dying in his hut, why are you going to the market?

The old disciple said: I know that my master loves a particular type of cake, so I am going to purchase the cake.

It was difficult to find the cake, because now it had gone out of fashion, but by the evening somehow he managed. He came running with the cake. And everybody was worried -- it was as if the master was waiting for someone. He would open his eyes and look, and close his eyes again.

And when this disciple came, he said: Okay, so you have come. Where is the cake? The disciple produced the cake -- and he was very happy that the master asked about the cake. Dying, the master took the cake in his hand, but his hand was not trembling. He was very old, but his hand was not trembling. So somebody asked: You are so old and just on the verge of dying. The last breath is soon to leave you, but your hand is not trembling.

The master said: I never tremble, because there is no fear. My body has become old, but I am still young, and I will remain young even when the body is gone. Then he took a bite, started munching the cake. And then somebody asked: What is your last message, Master? You will be leaving us soon. What do you want us to remember?

The master smiled and said: Ah, this cake is delicious.

This is a man who lives in the here and now: This cake is delicious. Even death is irrelevant. The next moment is meaningless. THIS moment this cake is delicious. If you can be in this moment, this present moment, this presentness, the plenitude, then only can you love.
