## MAITREYA'S WORDS

### ABOUT THE END OF THE WORLD PROPHECIES

Today we are very lucky to be alive. Because yesterday was supposedly the end of the world! A Christian priest in America said that yesterday was meant to be the end of the world.

These people are so funny, every year some priest announces 'the end of the world'.

In the last 2000 years there have been more than 10,000 ends of the world predicted by people.

That's so funny.

Many people are afraid of 2012, the Mayan calendar, the end of the world.

This is so stupid!

Yes there is the end of the world, everyday, for the people who died. But for those who don't die, it's not the end of the world so we must enjoy everyday!

### LIFE IS DANGEROUS

*A question was asked to Maitreya regarding the safety of living in Japan. Maitreya made the following comments:*

I don't want to sleep in Tako (Maitreya's garden) and be checking every hour if there is a new explosion in Fukushima.

At the beginning, the Japanese government said "there is no problem, it's only iodine, it will disappear very quickly". But we found Cesium in the ground in Tako, in Maitreya's garden. It will take 30 years to disappear. They said "no problem it will go with the rain to the ocean". It is a lie. It goes in the ground, in the vegetables, the fruits and in the underground water, a water that you drink everyday. I don't want to drink this water.

The government is lying, lying and lying, because they don't know what to do. If some friends of yours lie to you one time, do you believe them after? It is difficult. But the government didn't lie only one time, they did it 20 times. How can you believe them? It's your freedom.

They are saying now that it's not safe to use tea kocha. They didn't say it before, too bad because many people drank this tea. Oops. They believed the government, now they have some hot particles inside them.

It is the same for the milk, same for everything. The milk is now dangerous.

So you are free to believe the government or to believe me. It's your life.

Okinawa is safe, safer than Tokyo!

We can never be 100% safe anywhere, Okinawa has much less radiation than California, because the wind from Fukushima goes to California, and then the radiations from Fukushima go to America, Europe, China, everywhere! But Okinawa is much better than any other place for the moment.

We cannot be 100% safe in this world, life is dangerous.

When you are born you start to have a dangerous life, so it's good not to be afraid.

Life is dangerous but it's good, it's exciting!

Enjoy this danger of being alive, just don't take stupid risks, like crossing the road or a highway with your eyes blinded or jumping from 100 meters in the ocean, or living in Tokyo!

It's very dangerous to be in Okinawa but much less dangerous.

Everywhere you live, there is danger, but try to make the percentage of danger smaller.

However don't expect to have a 100% safe life, because life is dangerous. A life 100% safe would be terribly boring. Danger is exciting, that's why we do race cars, swimming, many things, because it makes life exciting.

Sex can be dangerous too but it's good. Danger and risks are the most exciting parts of life. The most risky things is not to take any risks in life. Just don't take too many of them.

We need risks. So in a way, this Fukushima dangerous thing is exciting. We escaped, but it's exciting. Don't live in fear! Enjoy it!. Move a little bit further but enjoy everyday we are alive.

And for now we are safe in Okinawa, everyday is beautiful, better than living in Fukushima. So enjoy everyday, enjoy every minute, because we never know.

Even if you are in the safest place on earth, even if you stay in your bedroom to have no risks at all, there can be a meteorite coming from the sky, falling on your house. We never know!

So enjoy now, we are alive, we love each other, hold the hand beside you and feel it. The happiness of your life. The joy to be alive in a dangerous world but happy, even if we die. Let's die happy.

Better die happy, than live with fear.

***When asked whether all Japanese Raelians should move to Okinawa, Maitreya answered:***

It isn't necessary that all Raelians leave Japan to come to Okinawa, no.

Those who can afford it, those who have enough money or enough freedom to come, that's great, but some people cannot, and it's good if they stay in Japan.

And it's good also if level 4 or level 5 Guides, stay in Japan to take care of these Raelians.

Giving your life for the Message is beautiful, we still have to spread the Message in Japan now, more than ever. Because people are so desperate with the Tsunami, the earthquake and the nuclear problems, they need hope.

So now more than ever we need Raelians and Guides in Japan.

And those who stay to take care of the Raelians and spread the Message in Japan are very courageous. And that's beautiful, it's love. Those who can come? Good. But I am happy that not everybody is coming to Okinawa.

If all Raelians from Japan were coming to Okinawa, nobody would spread the Message in Japan., That's very bad.

So we need Raelians in Japan, and it's beautiful to be ready to give one's life to stay in Fukushima area and continue to help people and spread the Message, that's beautiful.

It's the choice of everybody to come here with me or to stay in Japan. Both choices are good.

That's what I wanted to say, to send my love to all the Raelians and Guides in Okinawa and all those who stay in Japan.

### **LOVE IS WHAT MATTERS,**

*June 19th,*

Before I start a little speech, I want to say **I love you.**

This is the most important message from Elohim: Love. Everything else is a bla bla.

It is very important to know that they created life on earth, yes. But love is more important and I am the Messenger of Elohim and the Elohim are love. So I am the Messenger of Love.

What I bring you in the Message, explaining how they created life, is very interesting but very intellectual. Love is more important, they love us, they love each one of you. This love is much more important than the Message, because if Elohim had sent a

Message, and a Messenger, without love, this would not be interesting. Love is number 1, from them to you, from me to you and from you to them also.

Give your love. The more you give love, the more we can save the planet.

Love is the only thing which can make you happy, no money, no sex, nothing can make you as happy as love, the real love, which is giving, giving everything.

And the most important thing is to give your life for Elohim.

Are you ready to give your life for Elohim ?

If you say 'no, I just want to give a little money,' then you are not happy. But if you say 'I'm ready to give my life for the Elohim', then you feel happiness. I am ready to give my life for the future of humanity.

Many people on earth want to kill me, I'm ready, I don't care, I will not change one word to be safe from them. I don't care. Because my life is here to save you, and if somebody kills me, that will change nothing because you have my love and then you can give it to everybody.

They can kill me, they cannot kill love.

That's why love is the most important thing. Give your love, not a little bit, give it all.

When you give all, you feel so good.

Love is like water, when you want to take water with your hands, you take nothing, when you want to give water you give everything.

Love is giving and when you think you have given everything, there is more to give.

So remember to train yourself to give more love.

Even if now you believe that you are already giving a lot of love, it's not enough, it's never enough.

If you think it's enough, then you stop giving enough love. I never give enough love. I will never wake up and say "ah I have given enough love" never! Because if I say I give enough, then love stops.

When you put yourself in this state of mind, thinking "I never, never give enough love", then you are in love.

Do you feel it? Do you feel it inside you? Give more love. It's simple, with a smile, with your eyes, with your being.

## NEWS AND VIEWS

### RAEL SUPPORTS KADHAFI IN FACE OF INTERNATIONAL AGGRESSION AGAINST LIBYA

In a recent speech about world events, Rael declared his support for Muammar Kadhafi, guide of the Libyan revolution. Rael said Kadhafi is a victim of international aggression and supported Kadhafi's proposal to replace the dollar with a gold-dinar that would become the new African currency.

After calling the currency proposal "a marvelous idea," Rael said the true reason for the current attack on Libya is "an open secret."

"The international aggression against Libya has been covered up under the pretext of protecting the civilian population," he said. "The only real reason is to hoard the oil and combat Kadhafi's idea of creating a currency based on gold, which could be used instead of the dollar for oil transactions."

Indeed, according to recent news reports, Kadhafi has recently rejected both the dollar and euro for oil transactions. He has also called upon the African continent to unite in the use of the gold-dinar, which could become the sole currency in Africa. This idea was approved by many Arab countries and most African countries, with two exceptions: the Republic of South Africa and the chief of the Arab League. But the proposed currency measure met with serious disapproval from the United States and the European Union, and especially from President Nicolas Sarkozy of France, who calls Libya a threat to the financial security of humanity.

"We, the Raelians of Kama (the native term for Africa) congratulate Kadhafi's action, which is an answer to Rael's ongoing appeal for creation of a single African currency," declared the Raelian Guide Tai Ehouan, leader of the Raelian Movement in Africa. "Rael launched that appeal to African countries nearly two decades ago."

Ehouan added that in an October 2009 interview, Rael discussed the last 50 years of Kama's independence, warning African nations of future aggression from former colonizers currently suffering from economic and financial crises. He said the former colonial powers would not hesitate to return and colonize them again, and that they would use all possible false pretexts to justify their military interventions.

"Unfortunately, that is what we are now witnessing in Libya!" Guide Ehouan explained. "It has become more than urgent for the African leaders to wake up and listen to Rael."

## **RAEL NAMES MINISTER FARRAKHAN HONORARY GUIDE OF HUMANITY**

Following his recent Press Conference at the UN Plaza Hotel in New York where he exposed the U.S. and NATO's criminal War in Libya and Africa, Minister Farrakhan, head of the controversial Nation of Islam, has been awarded the title of "Honorary Guide of Humanity" by Rael.

Farrakhan is a Peaceful Revolutionary who has long been admired by the US and African Raelians for his controversial positions on social and political matters.

In his June 15th speech, Minister Louis Farrakhan lambasted the U.N., the U.S., and the "coalition of demons" that he said makes up NATO. He drew interesting comparisons between what the Libyan people have achieved under the Kadhafi government and the problems faced by most of the nations now trying to oust the Libyan leader, particularly the US, Britain, France and Italy where unemployment is high and, unlike the Libyan people, many are homeless.

Farrakhan said the United Nations have no legitimate right to exist for passing the resolution that has allowed NATO to take military action in Libya and that NATO is in direct conflict with their own resolution 1973, which is supposed to protect civilians now that NATO bombings are killing civilians.

## **VICTIM OF HATE CRIME RHAIS BHUIYAN AWARDED TITLE: "HONORARY GUIDE OF HUMANITY"**

Rael has awarded the Raelian title of "Honorary Guide of Humanity" to Rais Bhuiyan, a Muslim man originally from Bangladesh, living in Texas, who was shot in the face by another Texas man, Mark Stroman, just after 9/11 in what is termed a "Hate Crime". In that act, Stroman also killed two Asian-Americans and left Rais blinded in one eye. Stroman awaits execution.

Rais, however, is petitioning to save the life of the killer who attacked him. He has also enlisted the support of the families of the other two men who were killed. He is putting all he has into this life saving action. He has even started an organization in hopes of stopping all Capital Punishment. <http://worldwithouthate.org/>

Rais' dedication to this effort is deeply moving and we hope Texas and the entire US will take a serious look at his humanitarianism. This supposed "Christian Nation" is one of the few countries on Earth which still carry out this barbaric practice.

## NATIONWIDE DEMONSTRATION IN JAPAN AGAINST THE USE OF NUCLEAR ENERGY.

Maitreya asked all Raelians to participate in all these protests against nuclear energy with banners identifying them as “Raelians against nuclear energy”

## CLITORAID IN MIAMI

This month of May the Miami team, had the opportunity to diffuse and collect money for CLITORAID at the Exxotica Event in Miami Beach. This time we had the great idea of using Obama's image with the "Adopt a Clitoris" T-shirt, to grab the attention of the public. This idea was a total success, since everybody wanted to have a picture with Obama, and put it on Facebook; The Spanish community was also more receptive since the donations and support was flowing and visited by the most well known Spanish media "UNIVISION", they had a special note about us in the evening news.

Other media came for interviews :

- A A N ( ALL ADULT NETWORK)
- Agencia de Noticias E F E,
- The d420 show,
- Sobe Geeks media ,inc
- The Florida Courier
- The Darson & Danise Show
- News Time

The CLITORAID booth is now well known in this event not only for its objective, but also the popular 'pussy' chocolate and our colorful members. Our Miami team did a wonderful job, we had: Joe Beyhan and Mal: the best sales persons, Jesus: with his artistic touch, Andre: with his good vibrations and energy, Donna: for her direction and the event coordination, Maritza: for her enthusiasm, Richard: for his unconditional support and photography Thanks to everyone... One more time we demonstrated that "WE ARE ONE"

## SLUTWALKS

Raelians in Chicago, Toronto and London took part in local Slutwalks, a new event that was initiated after a Toronto police officer stated that “women should avoid dressing like sluts in order not to be victimized” (<http://www.bbc.co.uk/news/world-us-canada-13320785>).

Maitreya RAEL had commented on this saying *“I strongly support this movement. It’s this type of conservative police officer, poisoned by primitive religious values and prejudice, who can turn into one of the ‘dress police’ like those in Iran, who end up forcing women to wear veils or even burkas. Women have the right even to go topless or nude without being physically abused or raped.”*

### MARC LETOURNEAU AND LARRY ABDULLAH TOLD US ABOUT THEIR PARTICIPATION TO THE CHICAGO SLUTWALK:

Our team from Chicago had so much fun participating in the march organized by the newly formed Slutwalk organization that stemmed from the Toronto, Canada police views on sexual assaults. Raelians, fundamentally, support the resulting public reaction

that stemmed from these types of backward values. The Slutwalk event also presented a wonderful opportunity to publicize the GOTOPLESS.ORG organization thereby achieving two ends with a single effort and pushing the envelope to the next step in the women’s liberation revolution

Our sister Carla’s talent for advertising designs led to the creation of the most beautiful poster on display for the Slutwalk march. The image provided great visibility for the Gotopless organization and can be seen on the Slutwalk Website\* in pictures taken from a variety of distances and angles. Our team was well-received at the event and a few of the women participants, who sympathize with the Gotopless philosophy, added their support for our cause by marching along with us as we carried our poster along the route.

We could feel the revolution in the air. We could feel the hunger for justice and fairness. We felt privileged to be a part of this wonderful group of people who represent the antitheses of lemmings marching off the cliff. Thanks to the Maitreya Rael and the Elohim’s messages, Raelians are supporting causes that no one else dares to support. We are so happy to join other groups who, after 30 years of his teaching and leadership, are beginning to wake up to the activism and consciousness needed to change this planet.

**EMMA TELLS US ABOUT THE LONDON SLUTWALK:**

My name is Emma, I am a Raelian Guide in the UK and I am probably among the millions of women who have been raped and never reported it. When I read about a protest in the US named the Slut Walk I found myself wanting to have been part of it. The Slut Walk was created because on 24th January 2011 a representative of the Toronto Police gave shocking insight into the Force's view of sexual assault by stating: "women should avoid dressing like sluts in order not to be victimized".

As the city's major protective service, the Toronto Police have perpetuated the myth and stereotype of 'the slut', and in doing so have failed us. With sexual assault already a significantly under-reported crime, survivors have now been given even less of a reason to go to the Police, for fear that they could be blamed. Being assaulted isn't about what you wear; it's not even about sex; but using a pejorative term to rationalize inexcusable behaviour creates an environment in which it's okay to blame the victim.

Maitreya Rael was massively supportive of this new movement and after my own personal experience I was hoping that we in the UK might also have a chance to protest and support this amazing cause. To my delight I found out that it was due to take place on the 11th June so I set about putting the wheels in motion for us, The UK Raelian Movement to be there. Initially I was not sure how good the turn out would be but we were a happy group of 10 in the end, which I was very happy about. We met at Green Park station at 12.00 and once we were all present we made our way to the starting point outside The Hard Rock Cafe. This was a great opportunity for us to do some diffusing we had a number of people come and ask us about our symbol and what our philosophy was about so that was great. We always seem to find very passionate and strong minded people at these kinds of events so that also makes the conversations very interesting too. It took a while for the march to start I think we waited for about an hour and a half but it was nice to read all the other signs and to be in the thick of that action. When we got started things seemed to move quite smoothly and before we knew it we were in Trafalgar square.

I was so proud of the group, proud to be Raelian but also proud to not be scared to say this happened to me and to stand with others who had experienced this too. With lots of love from our small Island

Emma

## WORLD NAKED BIKE RIDE

Another event that the Raelians gladly support in the puritan North America

Upendra who attended the Washington DC rally tells us: “We were celebrating the power and individuality of the human body. What an experience it was - there were 13 of us altogether. We had everybody smiling. Tourists, bus and taxi drivers were hooting, honking and taking pictures of us. We even had the police officers smiling. We biked around the Capitol Hill as well.”

### LARRY REPORTS FOR CHICAGO:

Loads of fun at the 8th annual event in Chicago. I passed out lots of flyers to the many people that support our call for constitutional equality for women. It was a great opportunity to make people aware of our upcoming event and to make lots of new friends. The gigantic parade of bikes caused bars, restaurants, and night clubs alike to empty onto the streets. People poured onto the sidewalks from their homes while others chose to view the lively spectacle from their windows, balconies and roof tops. Our caravan passed along the famous Michigan mile, by the renowned Wrigley Field, and through many of the other famed streets of Chicago. The Chicago Police Department cleared the path all along the route as it twisted and turned, meandering through the central city and the surrounding neighborhoods. On this night, loud cheers, applause, and exuberance, greeted the parade of bikes at every turn and put warm approving smiles on the faces of people all along its path.”

### IN TORONTO BY DIANE:

Last Sunday, Toronto was holding its fourth annual World Naked Bike Ride. It was our first for Raelians in Toronto and it sure was a lot of fun. Aresh, Harold and myself participated. It was so much fun that our cheeks hurt from laughing and smiling the whole way through. We met at noon and people gathered to paint their bodies, get acquainted, decorate their bikes with signs and ensure their horns and bells were functional. We decided to promote GoTopless so we had the letters painted on our back. Two medias approached me asking about it so I answered their questions and suggested for them to attend our GoTopless event on August 28th at the beaches. They said that they would attend and I continued passing flyers to all the ladies who were present. Many said they would definitely attend.

Just before leaving we did a photo shoot and then we started strolling through the busy streets of downtown Toronto from 1:00 PM to about 2:30 or so. We went through parks and busy Kensington market, Queen, Bloor, College, Yorkville and Church Streets and many more for more than an hour. All streets were filled with people and cars right in the middle of a beautiful sunny day. Some police officers took pictures of us while going by. They thought it was pretty funny! Many of us were first timers. We stop at city Hall where a concert was taking place and did another photo shoot before returning to our starting point at Coronation Park.

The most fun was to see the reactions of people. We saw many covering their eyes, or drop their mouth as they watch us go by. It was hilarious and we also received the cheers and support of many people applauding the courage they wish they had to go nude in public. Many were laughing while clapping or using their horn while driving to demonstrate their support. It was tremendous!

This is definitely an activity all Raelians will participate again and hopefully we will be more numerous to join in the fun and laughter next year! See you all next year naked and smiling like we were!

Love, Diane

## RAELIANS AT THE GAY PARADE IN TEL AVIV
