

MEETING WITH THE DALAI LAMA : René Bolduc testifies to the good faith of RAEL

Two years ago Rael announced that certain people had indicated to him that the Dalai Lama wished to meet him, that he spoke publicly about him, and that he wished to invite him to his Canadian center. It proved to be pure fabrication from a Compulsive Liar and who was the partner of a Raelian who at the time was a Guide. Due to Rael's respect for this Raelian, he never revealed his identity. But recent rumors spread by certain anti-Raelians, wanting this to establish "proof that Rael is a liar" forced the Guide of Guides to require that this Raelian give up anonymity to testify to the truth.

Rene Bolduc, who was that person, has just sent this admirable letter where he apologizes to Rael and Raelians for involuntarily having given Rael false information which was only the fruit of the imagination of his partner, even if Rene refuses to admit that her partner invented it all or cannot see it as it would endanger his relationship.... In any case, we respect his perception and publish here his letter as received.

All those who dared suspect Rael of being a liar, if they have so much as a little conscience, have only one option: to also apologize.

Here is the letter of Rene Bolduc:

Dear Raël

Please excuse me for my voluntary participation in the transmission of the information given by my partner who claimed that she was in direct contact with the Dalai Lama and also that she was first Lady in the Buddhist structure and nominated by him directly. I am responsible for having brought that information and I did all I could to have this meeting happen. It didn't happen and I ignore the reasons why it didn't happen. If this information caused disappointment among the Raelians I am sincerely sorry.

I am also sorry that some people have used these events to suggest that you invented all this and to state that you are a liar. I want to testify that it was I who was responsible for bringing this information to you and I regret the doubt that this could have sown in the spirit of some Raelians and I testify to this publicly with this letter.

WORDS OF OUR BELOVED PROPHET

WAR AGAINST FEAR

The American and British governments are working on having a common technology for their new ID cards. Following this announcement, the Prophet Rael made the following statement:

"30 years ago I announced that Genetic ID cards were coming soon. They are good for secure identification but bad for freedom. But all powers will coordinate their efforts to have everybody accept less freedom for the illusion of more security.

That's why we need a world revolution to destroy people fears and make again freedom and privacy the priorities. Fear creates more government power, more armies, more wars and more violence. The feeling of security gives less power to governments, less armies, less wars and less violence.

After the disappearance of USSR, US militaries were depressed and afraid to lose their privilege and huge budget as USA had no more enemies. September 11 was welcomed by US militaries as a gift from "god" as suddenly all the nationalisms and so called "war on terror" were a good excuse to keep their power and budgets and even have more. The invasion of Afghanistan and Iraq gave them all the prestige they needed to stay in power. All of this just because of unreasonable fears instilled in the public with the complicity of the medias, who, of course, sell more papers and advertising when they create fear in their audiences. So both the economic powers and the political powers have everything to gain from a collective fear.

Even if a paranoid world is created, with terror rating shown as weather forecasts, which is proven to be even worst than the weather forecast, as very high terror alert never materializes in any attack. But it keeps the collective paranoid fear alive and this is its only goal." Be afraid and give us power and money to protect you" that's the motto worlds politics and media. All of this with the help of only a dozen of men armed with cutters...

Now the biggest super power is in a "war against terror". As recently a US politician explained, to have a war you need 2 armies... Here there is only one, with a virtual enemy who is only the fruit of pure negative imagination. But 300 billion dollars have been injected in the US army and benefit to the US corporations. And the profits realized by the media due to the collective fear are huge. They are willing to be "imbedded" to any army in the world in order to make more money. And all occupation powers of the world are jumping on the so-called "war on terror" to justify their violence, tortures, and illegal occupation.

China was the first in Tibet, Russia in Chechnya, Israel in Palestinian territories, and now China again in its Muslim areas, and many more eastern countries.

The lie of the "war on terror" is becoming the justification of an incredible erosion of freedom and privacy in the very country which was built in the name of freedom: USA, under the disguise of the so-called "patriot act" which gives to US federal authorities as much power as the nazi SS. Now the whole world can torture prisoners, keep them in jail for a long time in concentration camps without trials and not respecting the Geneva convention by just naming them "detainees" or "suspected terrorists" and USA can say nothing as it started it...

The only way to save the world, the peace, and to be back to a peaceful civilization is to destroy this collective fear created and maintained on purpose by the politicians, the corporations and the media. It's a very hard job as these three superpowers rule the world. But by instilling in the world population especially with this magic tool that internet is, we can make good defeat evil. If ten people with cutters created an evil wave, millions of peace loving people with keyboards and voting powers can defeat it.

But to win this "war against fear" we must attack every aspect of this collective paranoia. This ID card is one of its aspects.

RAEL

In support of wise Japanese women choice to have less babies in order to save the earth.

Wonderfull ! Japan is giving the world a beautiful exemple. We need to stop having too many children in order to avoid overpopulation as we already reached it on this planet.

Politicians want women to have more babies not because it's good for the planet but because it's good for their nations. This is pure nationalist egoism. "My nation first, the earth is not important".

All irresponsible politicians of the world are sending the same stupid message : "make more babies" as they are afraid that there will not be enough young workers to pay for the retirement of old people. At the same time, the third world population (which is two third of the world) is starving to death. A responsible politics would be to push women everywhere in the world for having less babies and to open the borders so immigration can replace the missing new generations in the global village named the Earth.

It is shocking that half of the world is starving to death while rich countries politicians push women to have more children while making more and more anti immigration laws. This is pure racism as the real hidden message is : "we need more babies of our race and culture in order to keep the other races outside our borders even if they are starving to death. RAEL

A MOVIE TO SEE ABSOLUTELY !

Our Beloved Prophet strongly recommends the movie "Kinsey", available on DVD.... you may recommend it to your friends as well J

OFFICIAL SUPPORT

The official support of the Prophet RAEL and of the Raelian Movement was sent this week to Kenyan researchers from the Kenya Agricultural Research Institute (KARI), who began a trial planting of maize, genetically modified to resist insects.

Every year 20 percent of crop is lost because of pests. This genetically modified variety should resist the Stem Borer larvae which is blamed for the east African country dependence on maize imports, hitting the incomes of farmers and reducing food security.

LIFE OF THE MOVEMENT

THAI SEMINAR IN THE CITY OF ANGELS *By Mac Hahiba, national guide*

The Thai seminar was a great success!

Our 4th Thai seminar was held this year in the capital of Thailand - Bangkok from May 21st to May 23rd. The seminar had never been held in the capital before, but this time, its location was close to downtown with a good transportation system.

It was easier for Thai members to take some of their friends with them to the seminar, and in total, twenty-five people from Thailand attended. Also, eight members came from Japan, one participant came all the way from Sri Lanka and one from Taiwan -- The person from Sri Lanka learned about the seminar from the Raelian website, "www.rael.org". Only thirteen people attended the previous seminar held at a holiday resort in Pattaya in the suburb of Bangkok last year. Compared to that, this time, it was nearly double.!!

Our beloved guide in charge of teaching in Asia, Michio, gave such wonderful and clear teachings that Thai participants had a great smile on their face and looked so satisfied and happy. The morning's meditations were directed by one of the guides, Hany, who gently guided them into wonderful happiness.

On the last day of the Thai seminar, we shouted, "one for all and all for one" in Thai language all together, and we felt a strong bond and great progress in the Thai Raelian Movement. We also felt the heart-warming infinite love coming down to us from our Beloved Prophet - Maitreya Rael, and our beloved creators, the Elohim. We would like to send our appreciation and love to them from the bottom of our hearts.

We also would like to express our gratitude to Michio and Hany guides, who guided The Thai Raelian Movement in its progress with their teachings as well as all the other Japanese Raelians.

The capital of Thailand - Bangkok is called Krung Thep in Thai, which means the capital of angels. The Thai participants had a wonderful smile on their face, and half of them were young attractive ladies. They really looked like angels! The Thai seminar will be held again in Bangkok next year. Why don't you come to meet these attractive angels, too?

See you in the capital of angels next year!

ACTION IN EUROPE

In AUTUN, France

By Samuel Migieu

The mayor of Chissey in the East of France, François Manet, was given the book of the Messages this week. This special character organizes a public conference every month in his town and last week the theme of this conference was : "Giordano Bruno" !

I went there with Albert et Anny and we had fun. About 20 people were there, the local priest seated in the front row.

Here are a few quotes from the mayor : "The wrong with Giordano Bruno was that he was right too soon"also : "In France, we lack non-conformist people, foolish ones, real philosophers, politically incorrect people."

The priest answered of course that Giordano Bruno brought only contradictions. I then went on stage and explained how visionary Giordano Bruno was as he anticipated life in cosmos and brought values like "to think and not to believe" that would be very useful nowadays. Everyone applauded except the priest.

The mayor was pleased to receive the book of the Messages at the end and one of his assistant expressed the desire to read it as wellJ

On May 26, I attended with Jocelyne a conference given by Lama Rabzang on buddhism.

The theme of his conference was " love beyond attachment".

We didn't learn anything, our Beloved Prophet's teachings are so advanced on this domain. Our goal was to give him the Messages and it was done thenJ

In Paris *by boudha le raelien*

We had a wonderful week end in Paris with 2 conferences, one on Saturday given by Guyom and the other one on Sunday with Nlongi Uriël, in a bookstore.

The conference given by Guyom started with 2 songs, one of Rachel and one of a person we met in our last diffusion at the Trocadero (see last Contact). 43 persons attended, 10 books were sold and 2 given to our guests of honor : Michelle Maillet, author of "L'étoile noire" (the black star) and Melchiorre

Gerbino author of "Viaggi di Mel" (he is known in Italy as one of the strongest enemy of the vatican)

We also gave 10 CD of the Messages.

On Sunday 42 people came to listen to Uriel, some had already read his book !

We want to thank warmly the owners of the bookstore Anibwe, the first one to accept the book of Uriel. They even invited Uriel to come and sign his book despite a few threatening phone calls.

Congratulations also to the young Haitian girl who participated to the interview of Uriel at radio Africa #1 and followed Uriel all the way to the restaurant to interview him.

Uriel's book « A Christian Black is a

traitor to the memory of his ancestors » is still for sale at the bookstore Anibwe.... A perfect name for this shop as Anibwe means « opening » J
